Nominating Instructions

You may submit up to **five** proposed candidates and you may seek up to two Fellows who can second your nomination.

We ask that you take care to explain how your candidate meets the criteria for election and why the person should be elected. For example, previous participation in the Academy's work or other efforts to strengthen the quality of government delivery affecting more than one government entity would be highly relevant. Election must be based on the willingness and capacity of the candidate to contribute effort and expertise to the accomplishment of our important mission.

To Nominate:

1. Start your online nomination [here](#), you'll need:
 1. Your candidate's first name, last name, and personal email.
 2. The names of potential seconding Fellows
 3. To be prepared to outline how your candidate contributes to a more diverse and robust Academy
 4. To be prepared to outline how your candidate will be involved in the Academy

Please give special care to the Recommender's statement, which may be written in the form of a paragraph or using bulleted statements. This statement is particularly important because traditionally it has been used to prepare the paragraph describing the nominee in the ballot to Fellows. Merely summarizing the previous information gives neither the Committee nor the Fellows additional insight into why the candidate would become a valuable Fellow.

Nominating Committee Assessment

Each candidate will be interviewed by telephone by a Committee member before the Committee meets to recommend its nominees to the Fellowship for election. Election ballots will be provided to all Fellows electronically in early August.

All candidate recommendations must be received at the Academy offices by close of business on April 30, 2020.
